

Update certificate VPN ITB untuk Mac OSX

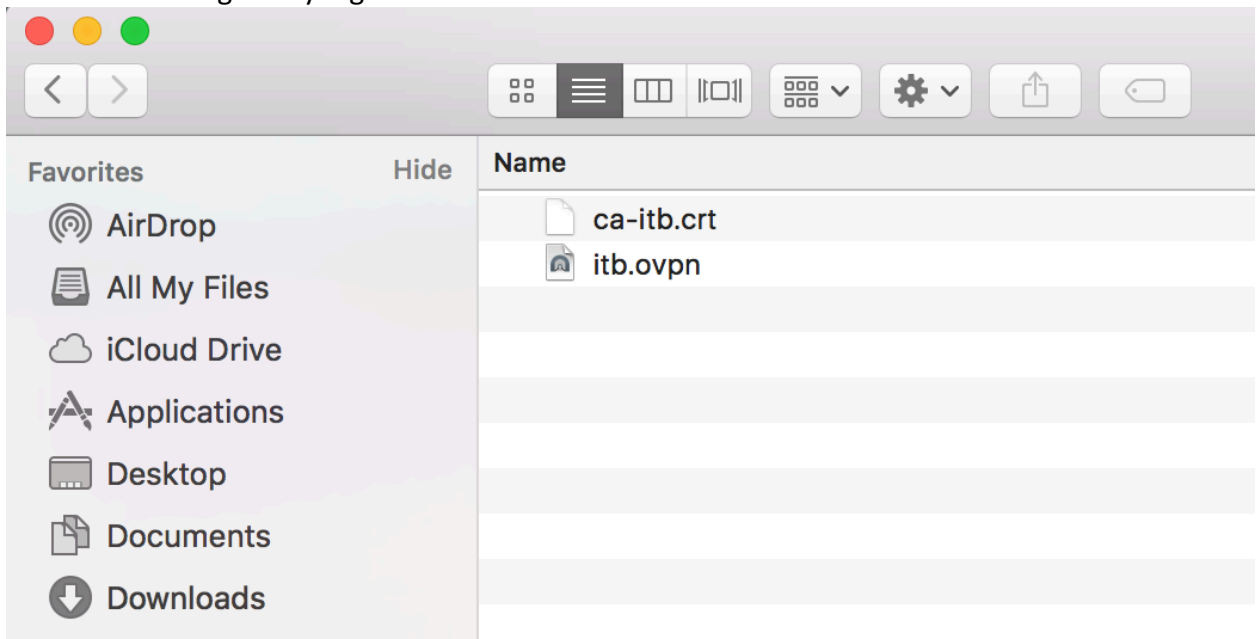

1. Download file konfigurasi VPN ITB baru <http://vpn.itb.ac.id/openvpn/Linux/config-openvpn-linux.tar.gz>

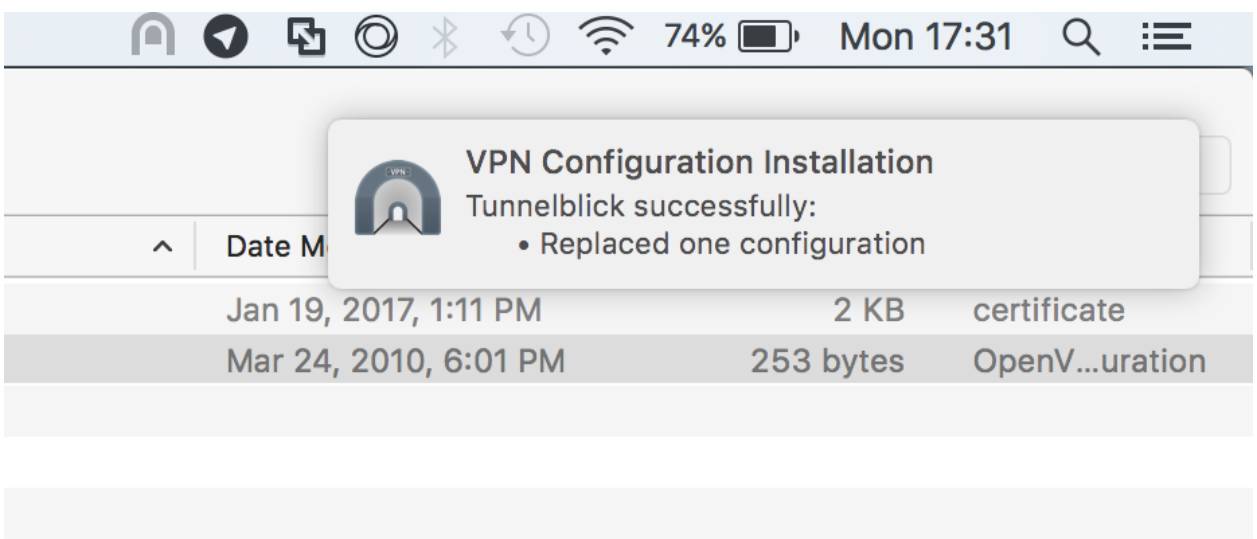

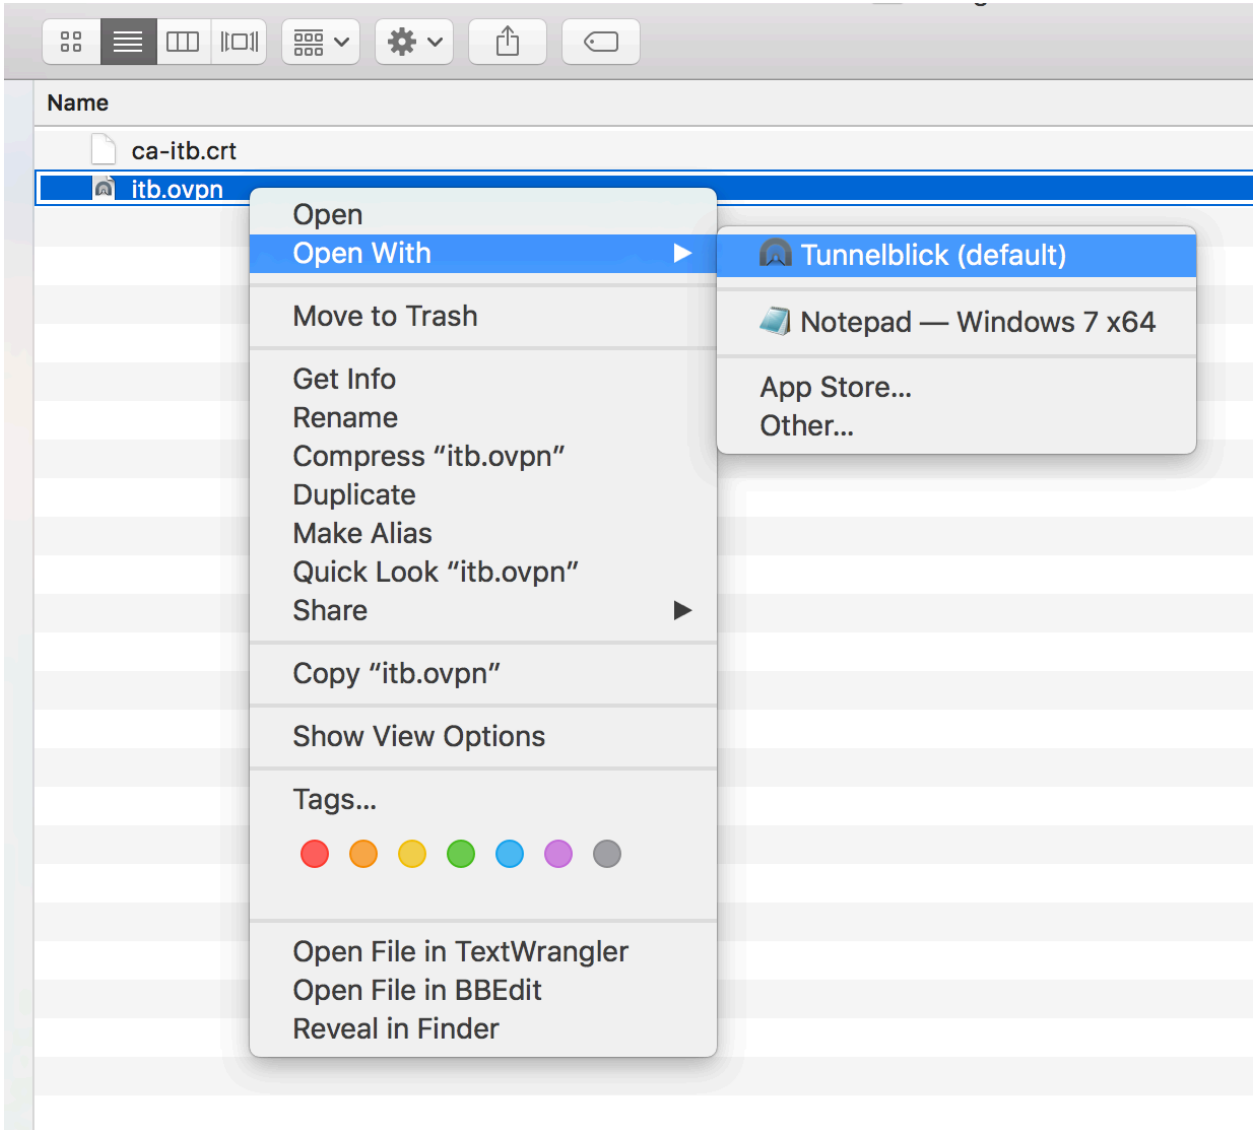

Index of /openvpn/Linux

- [Parent Directory](#)
- [config-openvpn-linux.tar.gz](#)

2. Extract file konfigurasi yang sudah di download

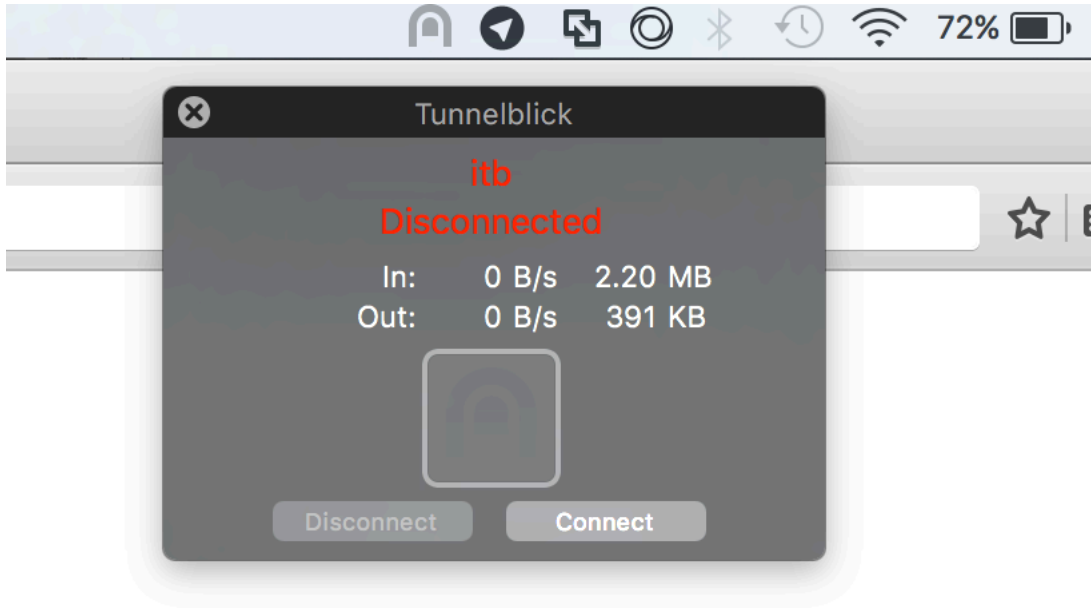

3. Install file konfigurasi yang baru

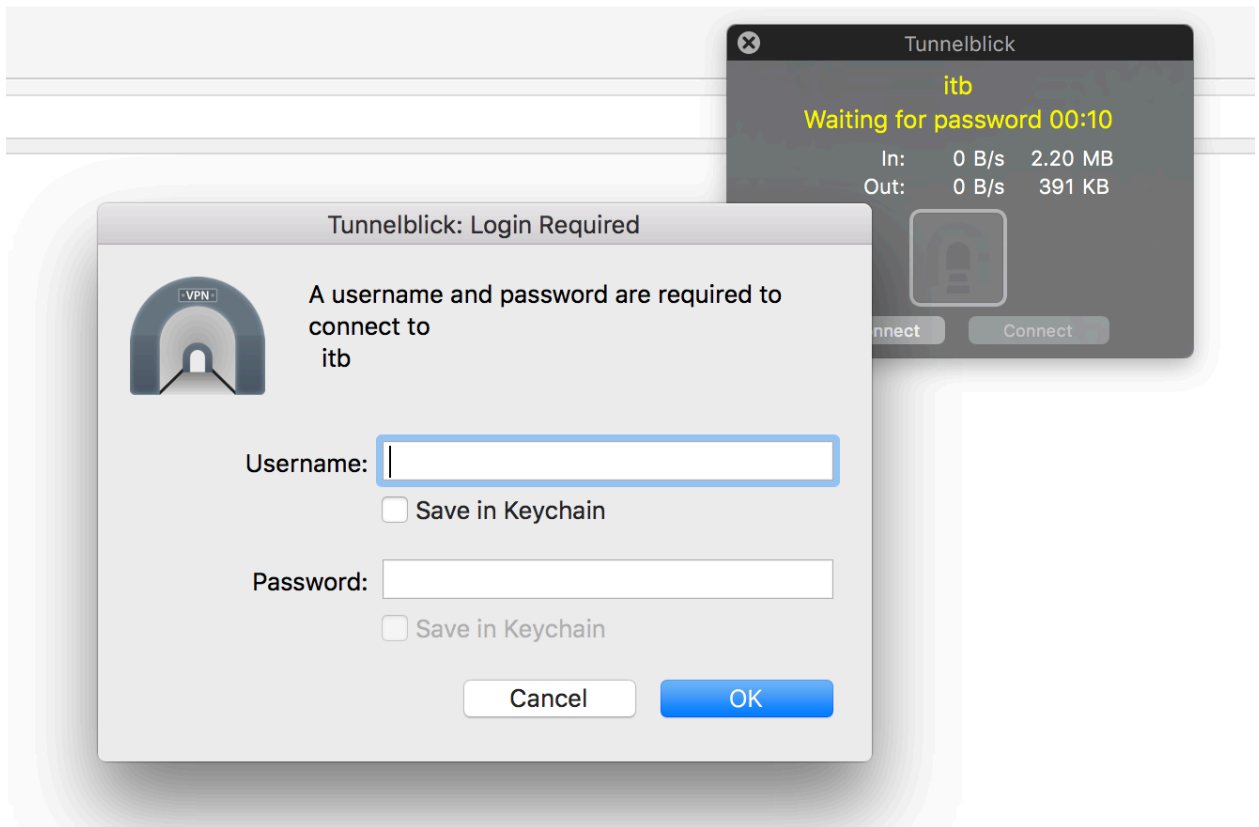

konfigurasi VPN sudah direplace dengan yang baru

4. Test VPN ITB

masukan user password akun INA

Tunnelblick

itb

Connected 00:07

In:	0 B/s	2.20 MB
Out:	0 B/s	392 KB

Disconnect Connect

The screenshot shows a 'Tunnelblick' application window. At the top left is a close button (X). The title bar says 'Tunnelblick'. Below that, the text 'itb' is displayed in green. Underneath, 'Connected 00:07' is shown in green. A data transfer summary follows: 'In: 0 B/s 2.20 MB' and 'Out: 0 B/s 392 KB'. In the center is a faded Tunnelblick logo. At the bottom are two buttons: 'Disconnect' and 'Connect'.
